

Introducción al uso de Python Práctica 1

- Haz un documento en formato PDF con:

- Capturas de pantalla de los comandos ejecutados en los puntos 3, 4 y 6, incluyendo el propio comando y el resultado mostrado por pantalla tras ejecutarlo.
- Una captura de pantalla probando el apartado 5.8 y 5.9, donde los parámetros tengan sentido y por tanto se muestre correctamente la información del rango creado. Tendrás que probar el código mediante la consola de comandos.
